Profile Summary

B.Tech student in Artificial Intelligence & Machine Learning at Amity University, Mohali. Strong foundation in Python, AI/ML concepts, and web application development. Built and deployed SnapClass, an AI-powered attendance and classroom management system. Passionate about software development, machine learning, and building real-world products.

Education

Amity University, Mohali — B.Tech Artificial Intelligence & Machine Learning (2025–2029)

Him Academy Public School Vikasnagar (CBSE, PCM) — Class XII: 82%

Glory Public School — Class X: 96.15%

Technical Skills

Programming: Python, C
Web Development: HTML, CSS, Streamlit, Flask
Databases: MySQL, SQLite, Supabase
AI/ML: NumPy, Pandas, Matplotlib, Scikit-learn, OpenCV
Tools: Git, GitHub, VS Code, Jupyter Notebook

Project

SnapClass – AI-Powered Attendance & Classroom Management System
• Developed and deployed an AI-powered attendance and classroom management platform using Python and Streamlit.
• Implemented face-recognition attendance workflows and voice attendance support.
• Built authentication, subject enrollment, and student dashboard features.
• Used Supabase for backend data management and GitHub for version control.
• Designed a modern user interface with custom CSS and deployed on Streamlit Cloud.
